

PABLO TORRADO GARCÍA

Computer Science Engineering Student – Universidade da Coruña

A Coruña, Spain · pablo.torrado.garcia@gmail.com · +34 698130405 · ptorrado.com · linkedin.com/pablоторrado

Professional Summary

23-year-old Computer Science Engineering student at Universidade da Coruña, specialized in Software Engineering, with expected graduation in February 2026 upon submission of the Final Degree Project.

I bring hands-on experience in web development through both freelance and academic projects, with strong expertise in React, Next.js, and TypeScript to build modern, responsive, and optimized user interfaces. Additionally, I have experience in technical support and basic systems administration within an industrial environment, where I developed skills in incident resolution, user management, and process optimization.

My international background includes an Erasmus mobility program at West University of Timișoara (Romania), where I improved my English proficiency and strengthened intercultural and adaptability skills.

I am a proactive and quick learner, team-oriented, communicative, and results-driven. I am motivated to grow professionally in the tech sector, with a strong interest in software development, modern web applications, and innovative solutions that deliver real value.

Technical Skills

- Programming Languages: Java, C, JavaScript, TypeScript, Python (basic), HTML, CSS, XML
- Frameworks & Libraries: React, Next.js, Tailwind CSS, Framer Motion
- Databases & Systems: MySQL, Cassandra (basic), Windows, Linux
- Tools & Environments: Git/GitHub, Visual Studio Code, JetBrains (IntelliJ, PyCharm, etc.), Docker (basic)
- Office & Networking: Microsoft Office, basic network management

Professional Experience

Web Developer (Freelance Project)

July – August 2025

Grupo Espacio Fiesta – A Coruña, Spain

- Designed and developed the official website for an events and children's party business.

- Built with React, featuring a modern, responsive, and animated UI.
- Implemented performance optimization (images, caching), SEO best practices, and fast loading times.
- Developed dynamic galleries and functional contact forms.
- Freelance project delivered to production, directly enhancing the company's digital visibility.

IT Support Technician

July – August (2022, 2023, 2024)

Ignacio González Montes, SA (Galician Canning Company) – Santa Uxía de Ribeira, Spain

- Soporte técnico de microinformática: instalación, mantenimiento y resolución de incidencias en equipos.
- Tareas ofimáticas y administrativas.
- Creación y gestión de usuarios en servidores.
- Configuración de permisos de acceso a directorios compartidos en red.
- Colaboración con otros departamentos para optimizar procesos.

Education

B.Sc. in Computer Science Engineering (Software Engineering specialization)

Universidade da Coruña, Spain (expected Feb 2026)

Scientific–Technological High School Diploma

IES Rosalía de Castro, Santiago de Compostela, Spain (06/2020)

Compulsory Secondary Education (ESO)

IES Rosalía de Castro, Santiago de Compostela, Spain (06/2018)

Languages
